

To Whom it May Concern,

I have become aware that possible changes may be made to XM radio regarding traffic and weather. I implore you to please leave XM alone. I was one of those who at one time saw no point in paying a monthly fee for radio. However it is now my main source of entertainment and information and its usefulness to us old retired people who travel is invaluable.

If the NAB people have a problem I would suggest that they enhance their own product rather than attempting to tear down the competition.

Any changes to XM should be to add more features, not remove current ones.

Sincerely,

C.T. Buskirk
